With Nevada ranked 42nd in the nation for the childhood immunization series 431331, more work needs to be done to increase our rates.

To work towards improving our rates, the Nevada State Immunization Program, Immunize Nevada, Northern Nevada Immunization Coalition, and the Southern Nevada Immunization and Health Coalition want your input on how we can communicate immunization information better with you.

Please visit the link below to take a 10 minute survey and be entered in a drawing to win one of the prizes below.
